

STATEMENT OF PURPOSE

RS22785

This legislation removes special treatment for elected officials in regards to Second Amendment Rights. Currently, all citizens but those who fall in several specific groups enumerated in Idaho Code are required to obtain a license to carry a concealed weapon, including firearms. Elected officials are currently one such group who is excepted from this requirement. This legislation will eliminate that special treatment for elected officials. Furthermore, this legislation streamlines language defining when an unloaded or disassembled gun can be concealed in a vehicle. Finally, this legislation clarifies the instances when a concealed weapon permit is necessary for carrying a concealed weapon.

FISCAL NOTE

No fiscal impact.
